

SCANNING OUUG BADGES

- ❑ **Capturing Attendee Information via QR Code:** OUUG attendees receive a conference badge with a QR Code for scanning purposes. Any type of cell phone or mobile device with a camera can be used to scan this QR code, add notes and save to your device or forward via a Share function. ADDITIONALLY, you can download a FREE badge scanner called **BadgeScanner™ Lead Retrieval by ATIV Software** for Android & iOS. This works like a charm with an area for notes, exporting contacts, etc. There are number of free QR code apps also.

BadgeScanner™ by ATIV
